

TRUECHART4EXCEL

- What is Excel?

What is Excel?

Microsoft Excel is a software program included in the Microsoft Office suite and is available on various platforms. It is used to create spreadsheets for data that is laid out in rows and columns.

What is TRUECHART4EXCEL?

With TRUECHART4EXCEL you will get a platform-independent commenting and charting software. You will benefit from the following core functionality:

- IBCS compliant charts and graphs optimized for the maximum of comparability
- functional commenting suite with the ability to link comments to your data
- see your comments in other BI-Systems like Qlik Sense or Microsoft Power BI
- retaining every comment alongside its relevant data across different data sources
- easy configuration

If you want to learn more about what TRUECHART provides, you can consult the feature guide.
