

# KPI-CHAT TABLE 2.0 - Integration

The screenshot shows the TRUE CHART interface with the settings panel open. The settings for 'Table 2.0' are highlighted with orange boxes and arrows. The table configuration is as follows:

| No.                                 | Name             | Type          |
|-------------------------------------|------------------|---------------|
| <input checked="" type="checkbox"/> | 1. Sum(Sales)    | Value         |
| <input checked="" type="checkbox"/> | 2. Comment input | Comment in... |
| <input checked="" type="checkbox"/> | 3. KPI-CHAT      | KPI-CHAT      |

The 'KPI-CHAT' row is highlighted with an orange box. Below the table, the 'KPI-CHAT' configuration is shown:

**KPI-CHAT**

Type: KPI-CHAT

Legend / Header

Show: Center
